2. Have you ever had a sore or rash on your skin? You might have put cream or powder on it to make it go away. Sometimes the rash or sore might just go away by the next day.

In the times of Jesus people sometimes got sores or a rash that would not go away. No matter what kind of medicine the person used, they did not get better. The sores would get so bad that the person would die. This was called leprosy.

People with leprosy could not get close to anyone else in case others got leprosy too. People with leprosy could not hug anyone or eat with anyone. They had to live away from the city. They could only be with other people who had leprosy.
Once there were ten men who had leprosy. They did not live in a city. They had to stay away from everyone. They must have been very sad. Most of the men were Jews like Jesus was. One of the men was a Samaritan. Most of the Jews did not like the Samaritans very much. The ten lepers had heard about Jesus. They heard that Jesus could make people well. The problem was that the men could not just walk up to Jesus because they did not want Jesus to get leprosy too. Instead, they waited on the road for Jesus to walk by. When they saw Jesus coming towards them they called out to him before he got too close.

The ten lepers said, “Jesus, Master, have pity on us!”

Jesus must have been very sad to see these men. They would have had sores and some of them might have even had leprosy so long that their toes or fingers might have rotted off. The lepers probably even stunk.
Some people might have just wanted to run away from the men. But Jesus did not run away from them. He made them better in

ste

ad. Jesus made all the leprosy
disappear!

The men were so happy! They could hardly believe it when they looked at their healthy skin. Now they could go and be with the
ir

friends. Now they could go and give their

families a great big hug.

Jesus told the men to go to the priest and show him that the leprosy was gone. The priest would have a special ceremony and t

he

men would get permission to go back to the city where the other people lived. The ten lepers were so happy that they rushed off to find the priest.
5. As they were rushing off, one of the men stopped and began walking back to Jesus. He wanted to say "thank you" for what Jesus had done. This man was the Samaritan.

The Samaritan was so thankful that he threw himself down by Jesus' feet to say it. This made Jesus very happy. Even though this man was a Samaritan he was the only one that said thank you. The other nine just went on their way.
Jesus told the man to go on ahead to the priest. He said to the man, “Go, your faith has made you well.”
7. The man went on his way very happy.
